A MESSAGE TO YOUNG ADULTS

Have we Retrogressed to Situations That Are Anti-American?

Have We Morphed Into a King George III and Communist Colony?

About This Edition

Are we truly an Anti-American citizenry? Is that, perhaps, why we see so much turmoil and grief in our everyday existence?..

In this edition we shall try to arrive at the reason we are becoming a less than great world power.

And discuss what our government really is.

Two Americas Competing

ANTI-AMERICAN EXPLORED

Some Definitions of Anti-Americanism

Opposed or hostile to the government, official policies, or people of the United States.

Hostile to the interests of the United States.

Opposed to the Americans, their aims, or interests, or to the genius of American institutions.

From English Wikipedia - The Free Encyclopedia

Anti-Americanism, Americanophobia or anti-American sentiment, is dislike, fear, or hostility toward the United States or the American people and their culture, business practices and technology, or the policies of their government, especially the foreign policy practices of the United States. An allergic reaction – to America as a whole”

My Definition:

Anti-Americanism is the act or state of not conforming with our Rule of Law. Our Constitution defines our law. Oaths of Office are actually Oaths of Fealty and bind the oath taker to the obligations uttered in the oath.

Violating Oaths of Office are violating our Rule of Law.

Disclaimer

This author does not, for one minute expect the opinions, notions, and forecasts herein to be accepted. In fact, it would be foolish to try to change the culture of any group of people.

However, to assimilate into our dominant culture does require any sacrifice as to personal beliefs. It merely requires one to read our constitution and then to agree to live with it and by it.

Future editions will be tough for you to read. But in presenting what I believe is the truth will upset many and generate much disagreement. If the truth, or at least my attempts to present cannot, at least generate thinking, then these writings become my soliloquy.

My Standpoint On This Subject

I believe that the older you become, and are categorized as a senior, the more invisible you become. For example, in a robust conversation among a few people, the elder will be gently edged aside as the younger and wiser offer their learned opinions on almost any subject.

And their words and opinions will disappear with the end of their worldly discussions. But written words are of a more permanent nature and available to any who seek them out.

A subject that is rarely discussed is that of the state of our Republic. We hear folks say, “I love America.” Perhaps what they mean is that they love the land and the tech gadgets that have consumed their lives.

But, in my experience, a vast majority of American Citizens do not even know what an American Citizen is and stands for.

We have trivialized politics to the degree that a potential voter has no place to go to find the truth.

If a person is asked, “What is the Rule of Law?”, a variety of responses can be expected. If one asks “What is our Constitution?” a variety of responses

can be expected.

I am no longer a member of a political party and could not write objectively if I was. Our sitting government is defined by the three branches of government according to the Rule of Law’s demands. They no longer work as defined or intended.

We give people the authority to govern according to the Rule of Law. This authority is meant to be of legitimate power, and based on defined duties rather than political mandates. It no longer works.

Politics should not be personal since it is all but impossible to distinguish between professional conduct and personal behavior.

Finally, we have become a nation that Lenin would extol when he declared ‘politics is the most concentrated form of economics.’

We have used our economy for selfish political purposes. And this form of politics cannot and should not exist within the Rule of Law.

So, I believe, that although we are on an irreversible course to a morally and economically bankrupt nation, we deserve to see why..

The Purpose of This Writing

Have you ever considered what type of government we have? Have you considered the terms thrown around by politicians at all levels of government? What is a progressive, conservative, liberal, moderate, mainstream, or establishment voter? In fact, what is a Democrat or Republican? Can a Socialist Party exist lawfully in our country?

All of these terms, when rendered against the form of government we have, namely, a Republic, become meaningless.

Only political entities and policy makers are legitimate when they are alloyed with the precepts and concepts of our Charter. And you know what our charter is, don’t you? Well, of course, it is our Constitution.

Of course our constitution was fashioned from a written model we call the Declaration of Independence. This document defines what our dominant culture, at that time, found wrong with King George’s manner of governing.

I stand quite alone when I state that our Constitution is a written profile of the dominant culture at the time it was written. It is the culture of Caucasian Christians who just wanted freedom liberty, and justice. What is the significance of these three words?

Freedom means they wanted their independence from England. It subtly

means we wanted to be citizens as contrasted to subjects of a monarch.

Liberty at its most loose meaning is the power to do what one pleases. It means being free from despotic control and to enjoy various social, political, or economic rights and privileges. We assume, for the time being, that in a political world, rights and privileges are used interchangeably. We cannot have either unless justice prevails.

At this time, I make an allegation that almost 100% of readers of this paper are anti-American. My definition is shown at the left sidebar. If one researches this definition, it will be found that Sociologists define it by referring to the perceived character of Americans, whatever that now means.

To show part of my reasoning for such a disturbing allegation, please refer to pages 2-3 and our Declaration of Independence grievances and page 4 where we look at the Communist Manifesto. I allege we are a Republic in name only and our political parties have converted us into a neo-Communist nation.

Our political parties sat on an Eagle’s nest and hatched a flock of Buzzards and Vultures.

Our Cultural Problem

Human nature is on steroids to drag us back to the primitive wants of cultures that have never survived in political states. We are responding to the siren song spelled out in Greek mythology. We have insidiously seductive entitlements being offered in exchange for a vote. The vote with which we have willingly used to steer us on an irreversible course.

It is written that less than 15% of the population in early times was for the overthrow of king George’s reign. Can 15% of our population help repair some damage? At one time I believed our Young Adults would rally and have passion for good citizenship and a love of country. Perhaps I am very wrong.

The following pages are a method for me to show what we have really done to our Republic. We are a bankrupt nation. Bankrupt in economy, morally and even physically. We have made our presidency a novelty and allowed ourselves to lose respect for the quality of person needed for the job. A lack of love for both a Republic and Rule of Law incubates corrupt leadership that trickles down to our lowest levels of government entities, including our military. I wish we were at a crossroads rather than observing our last rites as a great nation.

In following editions, we shall point out the major reason for our decline and offer a solution. Should you persevere with these writings I promise I have no political party motives and try to bolster my opinions with facts.

King George III v Federal Government

King George v Federal Govt

Do We Tolerate the Same Grievances?

As a citizenry, and as a population classified as a culture of dependency, we have by virtue of our failure to perform as a citizen in “the great experiment” rendered our founding documents essentially null and void. The results are visible in our journey on the irreversible course.

<i>Original 27 Grievances</i>	<i>Do They Exist Today?</i>
1. He has refused his Assent to Laws, the most wholesome and necessary for the public good.	1. When the Federal Government refuses to enforce laws, as in the case of illegal aliens and immigration law violations, the public good is not protected. When Congress does not require we follow the rule of law, we are denied justice and become incomplete.
2. He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.	2. The Medical industry is crippled by Health Care law that is yet to be understood. When a Congressional Leader states that we must pass the law so we can know what is in it, and when State Governors wish it overturned, but the Federal Government sues to stop the State’s Amendment 9 and 10 authority, King George is at work.
3. He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.	3. The various attempts to legalize illegal aliens flies in the face states rights. Judges who allow sanctuary to criminals have exceeded their roles and make law instead of enforcing the Constitution. Cities that become sanctuaries for lawbreakers are governed by amateur tyrants.
4. He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.	4. While the geographical aspects of this grievance is not relevant, the misuse of executive orders and national emergencies achieves the same King George result. Politically motivated recess appointments and political extortion shred the rule of law.
5. He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.	5. Federal lawsuits challenging a state’s right to enforce laws that the government refuses to enforce are challenged in court by the Justice department which has become the King George political arm. Politicians in robes have hijacked our rule of law. Judicial review began the downfall of the rule of law.
6. He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.	6. Some consider the influx of illegals and questionable “refugees” a form of an invasion. The states have become vulnerable to the dangers introduced by the invasion of drug cartels and illegal alien criminals exposing the states to illegal entry by future terrorists. Various states declare an emergency economic situations exist, but they receive no assistance from the Executive Branch.
7. He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.	7. The Planning and Reorganization Act of 1949, and title 17, 1910-1990 contribute to population redistribution. A failed immigration policy obstructs the common sense laws of Naturalization. Some foreigners are allowed entry if they set foot on dry land, without competing in any quota system. Executive Orders have compartmentalized us into ten regions for more equitable population distribution.
8. He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary powers.	8. The administration of justice has become a political arm of a multicultural agenda. The multi-cultural Justice Department leadership has a record of ignoring violations of law by favored social groups. The Supreme Court has become a Novelty Act rather than a court of Justice. Appointments, by both parties are designed to enhance political agendas as contrasted to enforcing the Constitution.
9. He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.	9. Appointments of judges has become one of patronage and political ideology. Even at the Supreme Court level, the novelty criteria makes one justice proud that a parent never learned to speak English. Another exclaimed that she would not have been selected if she were not a female. Those who manufacture their own political mantra, regardless of political party, face a short life on the bench.
10. He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.	10. The appointment of “Czars” to oversee and interpret our laws is the most grievous form of harassment yet tolerated by a people’s Congress.
11. He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.	11. Our Republic’s increasing role as an Imperialist type nation has, in times of peace, since war is never declared, required of us, to send our citizen soldiers off to foreign lands for accomplishing missions defined by a false “win the hearts and minds of our enemies” text book philosophy. Will win a so-called war of terrorism by winning the minds of the Islamics?
12. He has affected to render the Military independent of and superior to the Civil power	12. The function of “Posse Comitatus” is being rendered a moot law. Under the guise of Homeland Security, an agency managed by seemingly mentally neutered persons, various citizens are labeled “terrorists” and even veterans of the missionless wars are candidates for character assassination. Military agencies are being prepared to swiftly dampen any citizen unrest, contrived or emotional.
13. He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:	13. Various administrations have increasingly supported the United Nations and other foreign entities in approving treaties that supersede our Constitution. Under UN mandates of this entity, Global Inclusion has found its way into our major defense industries.

<i>Original 27 Grievances</i>	<i>Do They Exist Today?</i>
14. For Quartering large bodies of armed troops among us:	14. While we are not yet quartering armed troops, but we have instituted a dangerous policy of sanctioning illegal aliens to receive fruits of our treasury and to allow non-citizens serve in the military. We are in fact quartering other foreign invaders. We house, provide medical care, free schooling, and sanctuary cities for their illegal presence safety. We allow them to speak a foreign language and even allow official material to be printed in foreign languages. It is difficult to not consider 12 or more millions of law breakers an invasion who are aided and abetted by their oath violating multicultural comrades, some of whom pledge damage to our Republic.
15. For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:	15. The current Executive Branch and the Justice Department pursue a philosophy that enemy combatants, so defined by a previous administration, should be given a non-military tribunal day in court. The mockery already fostered on our citizenry seems to not generate any citizen outrage. Our Department of Justice has legalized political criminality at the expense of National Security and influencing elections.
16. For cutting off our Trade with all parts of the world:	16. This grievance works in reverse today. Our trade policy and loss of our competitive manufacturing capability has resulted in huge trade deficits with imports exceeding exports in the billions of dollars. Every import effectively exports a job.
17. For imposing Taxes on us without our Consent:	17. The various taxes, some misnamed as fees, are everywhere. Mandating health care insurance is most likely the one that would make King George most happy. It has made Briton and Canadian subjects happy.
18. For depriving us in many cases, of the benefits of Trial by Jury:	18. It is reported that hundreds of citizens are incarcerated under the color of law and held without any indication of a legal venue. Our Executive Branch performs the incarcerations, the Judicial Branch sanctions it, and the Congress is ordered to keep their hands off or they may face re-election problems.
19. For transporting us beyond Seas to be tried for pretended offences	19. This grievance is referred to the Executive Branch and the CIA.
20. For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:	20. Our Bill of Rights, and especially the 9th and 10th amendments have been rendered impotent by state legislators and governors.
21. For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:	21. Our three branches of government have methodically dismantled our organic law. Perhaps the most significant offense is the lack of recognition of Amendments 9 and 10. Various amendments have remained in controversy, and the 14th Amendment has all but eliminate state sovereignty. For example, how can you become a citizen of your state if you, by default, are a citizen the the nation? One Florida County, Brevard County, refused to defend a challenge to its Charter and the Court did not react. The presence of illegal aliens in Florida has been acknowledged by the State Government. The State Executive Branch ignores the plight of the citizen in favor of illegal aliens. Who profits or has profited from the presence of the illegals?
22. For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.	22. This grievance takes form in "recess appointments." Judgeships and other appointments that face scrutiny are held until the Senate goes into recess, and then the current administration increases its power by seeding the Executive Branch with persons that some groups might consider as being radicals.
23. He has abdicated Government here, by declaring us out of his Protection and waging War against us.	23. The definition of war has been revised in today's era. We can perceive the friction growing among government agencies and the citizenry. The bloated and not necessary Homeland Security Agency, staffed at the top by what appears to be a collection of helpless and hapless people with experience for the job only in the form of allegiance to a political party and its demands. If one listens carefully to speeches and talks by elected persons, when reference is made to the government, the reference is not "our government" or "your government", but "the government" which makes one ponder who "the government" really is.
24. He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people	24. With the exception of the so-called Civil War, this grievance remains at rest. However, one might consider open borders and the criminal actions inflicted by the interlopers as apropos to this grievance.
25. He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.	25. To nations we occupy, we might be called foreign mercenaries. With over 100,000 civilian contractors reportedly in Afghanistan, the citizens of Afghanistan must have cause to question our role in pursuing about 50-100 Al-Qaeda. Irresponsible entry by foreigners hell bent on our destruction is aided and abetted by current policy.
26. He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.	26. This grievance remains at rest. However, we are beginning to see our U.S. Navy becoming weakened by trickle down from the top faulty leadership.
27. He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.	27. The borders of our Republic are porous. The ranchers, on the Mexican border are savaged by Mexican Indians, Drug Cartels, and indirectly for our providing guns to the drug runners. The rules of warfare are non-existent, as is the moral compass of our three branches of our Federal Government.
Perhaps the final section should be reviewed since the signers assert there might come a time when people must change their government.	
We, therefore, the Representatives of the united States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be Free and Independent States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. And for the support of this Declaration, <i>with a firm reliance on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor. (emphasis mine)</i>	

Below we present a list of the 10 planks of the Communist Manifesto.

Next to each, we show our governmental counterpart.

Note Well! Do not blame the political parties. They only do what you want them to do. As can be seen, your political party has transformed you into a Communist.

The following is but a brief overview. Karl Marx used these planks to test how far gone a nation has become, and how rapidly it is ensnared by human nature's base and deplorable instincts. In my opinion, human nature will always force a society to descend from a representative government, to a direct democracy, and finally to a despotic controlled form of government under control of the same elected officials and political parties who destroyed our Republic.

<u>10 Planks of Communist Manifesto</u>	<u>Compare with U.S. Government Policy</u>
1. Abolition of private property and the application of all rents of land to public purposes.*	1. Is not your property tax a rent on your property? Has not the 14th Amendment opened the door to using your property tax to benefit government programs? Does the Constitution allow Federal Agencies to own land?
2. A heavy progressive or graduated income tax.	2. The controversial 16th Amendment allows the government to garnishee your wages. And the graduated rates, combined with involuntary withholding of taxes, merely redistribute wealth in a stealthy manner.
3. Abolition of all rights of inheritance.	3. Various past Federal and State estate taxes exist. Even today, Congress is attempting to increase inheritance taxes to conform to their Communist tenets.
4. Confiscation of the property of all emigrants and rebels.	4. Asset forfeiture, tax liens, Executive orders that gives personal property to government agencies, eminent domain to enhance developers. Many more examples including expressing grievances about government activities.
5. Centralization of credit in the hands of the state, by means of a national bank with State capital and an exclusive monopoly.	5. Establish the Federal Reserve private central bank. Responsible for a debt based economy driven by manipulation of fiat money supply. Credit, as controlled by this agency, might be the cause of our economic depressions and recessions.
6. Centralization of the means of communications and transportation in the hands of the State.	6. All communications, transportation, and interstate commerce under control of Federal Agencies. Government issued national ID through state driver licenses. Does National Security Agency go far beyond Karl Marx intentions?
7. Extension of factories and instruments of production owned by the state, the bringing into cultivation of waste lands, and the improvement of the soil generally in accordance with a common plan.	7. Land and factories are controlled and subsidized by this alphabet soup of agencies: the Department of Commerce and Labor, Department of Interior, the Environmental Protection Agency, Bureau of Land Management, Bureau of Reclamation, Bureau of Mines, National Park Service, and the IRS control of business through corporate regulations.
8. Equal liability of all to labor. Establishment of industrial armies, especially for agriculture.	8. Establishing minimum wages and supporting slave labor trade partners like Communist China. Various Socialist based unions, affirmative action, and the famous Executive Order 11000. Illegal aliens are fodder for a slave labor framework.
9. Combination of agriculture with manufacturing industries, gradual abolition of the distinction between town and country, by a more equitable distribution of population over the country.	9. The Planning and Reorganization Act of 1949, title 17, 1910-1990, regarding zoning, and super conglomerates. Executive Orders have compartmentalized us into ten regions for more equitable population distribution.
10. Free education for all children in public schools. Abolition of children's factory labor in its present form. Combination of education with industrial production.	10. Public education is a tax-forced entity and is regulated by the Federal government. The Department of Education, the teacher unions, and the educational philosophy that requires the learning bar to be lowered as the dumbing down reaches its desired outcome. The "pay your fair share" for the government approved agencies such as head start, school lunches, and various social subsidies smacks of the Communist Doctrine of redistributing wealth.

* Are your local elected officials actually purveyors of Socialism? Some use the religion of environmentalism to use your property as a means to supplement an already bloated budget? Will you be asked, on a referendum sometime in the future, to pay for Socialist wants? **OR WILL YOU SEND A MESSAGE THAT THE PARTY IS OVER?**
